

Now is the time to protect your building from rising electricity costs and Local Law carbon penalties. Solar One provides comprehensive technical assistance to deliver cost-effective solar solutions by starting with a **FREE** solar savings estimate.

Our Offerings

Our technical services include:

- Site Assessment for Solar Feasibility
- Financing / Incentive Consultation
- Solar Installer Selection Assistance
- Consumer Advocacy During Installation
- Solar Process Training & Education

There is a $5,000 fee for our technical services listed above. The pricing assumes technical services for one building, and pricing will be adjusted for multiple buildings.

Why Solar One?

Solar One is an NYC nonprofit advancing environmental equity. Our Here Comes Solar team has supported 1,100+ projects in underserved communities—cutting installation costs by 30–85% and reducing utility bills.
